

Glow+

SALICE

Glow+ è un sistema di scorrimento per armadi a 2, 3 o più ante sovrapposte, dotato di un rivoluzionario ammortizzatore magnetico che permette un movimento decelerato sia in apertura sia in chiusura, fluido e particolarmente silenzioso.

L'innovativa soluzione garantisce, infatti, la definitiva eliminazione della rumorosità in apertura e in chiusura e consente una maggiore facilità di apertura, annullando la tipica resistenza dei sistemi a molla.

Glow+ può essere utilizzato con ante in legno e alluminio, con un peso massimo di 70 kg. Il sistema può, tuttavia, essere fornito con un kit di potenziamento, con il quale è possibile utilizzare ante con un peso fino a 100 kg.

L'installazione di Glow+ è alquanto semplice e intuitiva, realizzabile o con viti o automaticamente con l'ausilio di clip con montaggio a pressione.

Il sistema, inoltre, può essere dotato di una copertura magnetica che consente un ulteriore arricchimento estetico.

Glow+ trova diverse applicazioni, in particolare armadi per zona living e notte.
